

THE POSTCARD PROJECT

Show your love! Make a postcard of artwork for our display project and create a window for others to share in your experiences with relationships.

HERE'S WHAT TO DO:

- ✎ Gather your pencils, markers, scissors and other art supplies. Collage items (paper scraps, pictures, etc.) are great as long as they're **securely glued to the sheet** and **don't make it too heavy to mail**. Please **NO glitter, beads** or anything else that will damage or make a mess in our scanner.
- ✎ Think about how you like love to be shown to you when you're in a relationship. What things does your girlfriend, boyfriend, partner, date, or boo do to show you good, healthy love? **Use words or images to complete the sentence: Show me love by...**
- ✎ **Fold this paper along the fold lines** (artwork on the inside, address on the outside) and tape together securely. We suggest taping all open edges so nothing falls out in transit. Check to make sure you have enough postage and **mail your artwork to us**.
